

# 2021-02-04 - ONAP: Standalone GUI for EMCO

## Topic Leader(s)

- [Sandeep Sharma](#)
- [Vikas Kumar](#)
- [Amar Kapadia](#)

## Topic Overview

The vision of the EMCO project is that it can be used in two ways: i) a controller southbound to SO within the full ONAP framework. Here the GUI would be SDC/VID etc. and ii) a standalone project for specific use cases such as enterprises. In this case, a gap was identified ~9 months ago that a standalone GUI was needed. This standalone GUI contribution was in response to that requirement. This presentation and demo talks about the specifics of the standalone GUI.

## Slides & Recording

### Recording

Slides: [https://drive.google.com/file/d/1V\\_1FWGV906p04U391itPwMJQyd0xVtgY/view?usp=sharing](https://drive.google.com/file/d/1V_1FWGV906p04U391itPwMJQyd0xVtgY/view?usp=sharing)

## Agenda

- Slide presentation to provide an overview of the EMCO GUI
- Demo to show the features while orchestrating the vFW use case blueprint

## Minutes

[Sandeep Sharma](#) presented the slides

[Vikas Kumar](#) gave a demo of the GUI

[Seshu Kumar Mudiganti](#) suggested that the GUI could be integrated with ONAP Portal project

Currently the contributions are made to the ONAP repo, TSC will provide guidance on what to do moving forward

## Action Items

- ☐ [Mehmet Toy](#) will provide specific feedback to the team
