

# 2021-02-04 - ONAP: Using ONAP components to orchestrate on Azure Kubernetes Service

## Topic Leader(s)

- [Rajendra Prasad Mishra](#)
- [Sriram Rupanagunta](#)

## Topic Overview

This session is to show how to deploy a subset of ONAP components on AKS, followed by how to orchestrate a service onto AKS, using the ONAP project EMCO (which is also used as a k8s plugin in multicloud).

## Slides & Recording

The slides are present [here](#).

The session recording is [here](#).

## Agenda

- Deploy ONAP (EMCO & CDS components) on AKS cluster
- Orchestrate Free5gC service onto another AKS cluster

## Minutes

The Chat session is [here](#).

## Action Items
