Minutes

AI/ML data and model sharing - Not seeing critical mass

- Scott Blandford Catherine Lefevre Internal to AT&T there is interest - but no specific lead identified yet
- Kodi Atuchukwu Less interest in the networking space - more business use cases interest in IT space. Not of immediate focus for networks.
- Christian Olrog Very interesting area, may not have the clear direction at the moment. Used extensively, not clear how to share the data with compliance of privacy laws.
- Scott Blandford Is there interest in co-locating the effort with the ONAP project? Or is a POC of more interest?
- Massimo Banzi Did some research on customer satisfaction/churn - not available for public review at this time
