Agenda and Minutes

- No open PR <https://github.com/cntt-n/CNTT/pulls?q=is%3Apr+is%3Aopen+RC2>
- [Cedric Ollivier](#) : to bootstrap an RC2/OVP overview
- [Michael Pedersen](#): Add K8s feature/plugin tests to RC2/Functest
 - I've had a few internal talks about adding tests for K8s features and plugins included in Kuberef to RC2/Functest
 - Currently we have some quite basic scripts (bash, python) that can be used to test and verify the behavior of the plugins
 - Once ready, it would be beneficial to have this added to RC2/Functest to help validate requirements from RA2
 - I will follow-up with [Cedric Ollivier](#)once I have more details
- [Rihab Banday](#) Tested sig_storage and sig_network on Kuberef
 - Tests look good so far
 - [Cedric Ollivier](#) will look into the failing testcases and check if we need those
