

OpenDaylight MediaWiki Migration

Internship Projects/Mentors

Title	Migration of MediaWiki to Confluence and ReadTheDocs
Status	APPROVED
Difficulty	LOW

Description

The OpenDaylight Project no longer uses the MediaWiki platform for its Developer wiki. However, there is still a large amount of content that lives on the archived page that is still relevant to the community. Interns would be expected to collaborate with the various projects within the OpenDaylight community to determine what content needs to be migrated to the official documentation at docs.opendaylight.org or our developer wiki at wiki.opendaylight.org.

Additional Information

N/A

Learning Objectives

- Have a comprehensive understanding of the overall OpenDaylight architecture.
- Familiarize oneself to Open Source best practices and how to engage with a project
- Take part in the design and implementation of Open Source Project Documentation
- Build relationships with open source community developers

Expected Outcome

All relevant content is migrated from <https://wiki-archive.opendaylight.org/> to docs.opendaylight.org or wiki.opendaylight.org

Relation to LF Networking

OpenDaylight
