Please add your name here:

- [Cedric Ollivier](#)
- [Olivier Smith](#)
- [Michael Pedersen](#)

Agenda and Minutes

previous actions:

- [Cedric Ollivier](#) : to bootstrap an RC2/OVP overview
- [Michael Pedersen](#): Add K8s feature/plugin tests to RC2/Functest
 - I've had a few internal talks about adding tests for K8s features and plugins included in Kuberef to RC2/Functest
 - Currently we have some quite basic scripts (bash, python) that can be used to test and verify the behavior of the plugins
 - Once ready, it would be beneficial to have this added to RC2/Functest to help validate requirements from RA2
 - I will follow-up with [Cedric Ollivier](#) once I have more details
- [Rihab Banday](#) Tested sig_storage and sig_network on Kuberef
 - Tests look good so far
 - [Cedric Ollivier](#) will look into the failing testcases and check if we need those

new items:

- SIG Testing traceability
 - RA2: <https://github.com/cntt-n/CNTT/pull/2332>
 - RC2: <https://github.com/cntt-n/CNTT/pull/2335>
 - Functest: <https://github.com/opnfv/functest-kubernetes/blob/master/docker/smoke/testcases.yaml#L37>
- All other SIG test case are already offered in Functest containers
 - kuberef: <https://gerrit.opnfv.org/gerrit/c/kuberef/+72248>
