

# 2021-04-01 - [CNTT - RC2] - Meeting Agenda and Minutes

## Attendees:

Zoom link: <https://zoom.us/j/92317903558?pwd=MEU1Z3FLbIB05nSitYUkdpeWV5UT09>

Please add your name here:

- [Cedric Ollivier](#)
- [Pankaj Goyal](#)

## Agenda and Minutes

### previous actions:

- [Cedric Ollivier](#) : to bootstrap an RC2/OVP overview
- [Michael Pedersen](#): Add K8s feature/plugin tests to RC2/Functest
  - I've had a few internal talks about adding tests for K8s features and plugins included in Kuberef to RC2/Functest
  - Currently we have some quite basic scripts (bash, python) that can be used to test and verify the behavior of the plugins
  - Once ready, it would be beneficial to have this added to RC2/Functest to help validate requirements from RA2
  - I will follow-up with [Cedric Ollivier](#) once I have more details
- [Rihab Bandy](#) Tested sig\_storage and sig\_network on Kuberef
  - Tests look good so far
  - [Cedric Ollivier](#) will look into the failing testcases and check if we need those
- SIG Testing traceability
  - RA2: <https://github.com/cntt-n/CNTT/pull/2332>
  - RC2: <https://github.com/cntt-n/CNTT/pull/2335>
- All other SIG test case are already offered in Functest containers <https://build.opnfv.org/ci/view/functest-kubernetes/job/functest-kubernetes-leguer-daily/40/>
  - kuberef: <https://gerrit.opnfv.org/gerrit/c/kuberef/+72248>

### new items:

- Make api-resources clear in RA2 <https://github.com/cntt-n/CNTT/issues/2341>
