

# AI/ML Models for NFV Usecases

## Internship Projects/Mentors

Title	AI/ML Models for NFV Usecases
Status	APPROVED
Difficulty	HIGH

## Description

This project aims to deploy and run AI/ML models for NFV-usecases. Any two of the following three problems can be considered. .

1. VNF/CNF Placement
2. VNF/CNF resource/performance/failure prediction
3. Packet-Loss Classification

Problem	Model	Link	Comments
Prediction of VNF Resource Demands	RNN, LSTM	<a href="https://ieeexplore.ieee.org/document/8806620">https://ieeexplore.ieee.org/document/8806620</a>	
VNF Placement	Neural Network Model (MLP)	<a href="https://ieeexplore.ieee.org/document/8806631">https://ieeexplore.ieee.org/document/8806631</a> <a href="https://arxiv.org/abs/2001.07787">https://arxiv.org/abs/2001.07787</a>	

## Additional Information

LFN Acumos: <https://www.acumos.org/>

TensorFlow Time Series : [https://www.tensorflow.org/tutorials/structured\\_data/time\\_series](https://www.tensorflow.org/tutorials/structured_data/time_series)

Collectd : <https://collectd.org/>

Hosting Repo: As a Subproject under CIRV - <https://github.com/opnfv/cirv>

## Learning Objectives

ML Techniques: Deep\_learning.

ML model development

AI/ML for Telco Usecases.

## Expected Outcome

Enhance Acumos with model for NFV/Telco Usecases.

Run Acumos with these enhancements in Anuket Testbeds.

Comprehensive report on applications of AI/ML in Networking(*Comparative analysis*).

## Relation to LF Networking

Will be part of Anuket.

## Education Level

Undergraduate

## Skills

Knowledge of ML and ML-Tools - Tensorflow.

## Future plans

This work is the first step toward use of AI/ML in Telecom Networks, it can be enhanced to more useful and complex usecases.

## Preferred Hours and Length of Internship

Part-Time

## Mentor(s) Names and Contact Info

Sridhar K. N. Rao

Spirent Communications

[sridhar.rao@spirent.com](mailto:sridhar.rao@spirent.com)

## Volunteers

Girish L. (PhD Student)

VTU

[girishlingappa7@gmail.com](mailto:girishlingappa7@gmail.com)
