Minutes

LFN Developer and Testing Forum - 2021 LFN Developer & Testing Forum June

- EUAG topic proposals - deadline 14 May 2021
    - Follow up to NFV testing – What test suites are needed in the Lab and what other
    - Working Session for the AI/ML White Paper – gather requirements from the community
    - Standing meeting on June 8 - make that an open meeting
- Two approaches for DTF sessions - pre-recorded presentations OR interactive discussion
    - Directions for pre-recorded sessions will be posted on the wiki

AI/ML White Paper Update Beth Cohen

- 7-10 pages
- Desired: make recommendations on where the community should be focusing investments
- Need help in areas: definitions, Intelligent Networking Challenges
- Steve Casey doing some analytics on the survey results and review
- Massimo Banzigot in touch with TM Forum on possible collaboration - awaiting feedback

Cloud Transformation Benchmark Study

- Details: https://www.lfnetworking.org/cloud-transformation-benchmark-study/
- Analysys Mason will be conducting the survey - in-person surveys (live, phone based)
- Presentation on the survey: Introduction-to-Cloud-Transformation-Benchmark_v1.pptx
- Benefits to operators: Independent benchmarking of Cloud Native journey
- Participants should be those setting Cloud Native strategy for the organization
- Survey is active now - Participants should sign up at the "details" link above
