- Vivekanandan Muthukrishnan
- Kavitha Papanna

Topic Overview

30m, Vivekanandan Muthukrishnan

With FTTx rollouts progressing, there is an increasing need to manage 10s or 100s of thousands of OLT switches. CDS provides an elegant solution to manage the configuration of these OLT switches. In this talk and hands-on demo we will discuss the CDS Blueprint Archive we developed to solve this issue. After watching this presentation, you will be able to understand how to use CDS to configure PNFs using Telnet.
