LF Anti-trust

- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrove at the firm Gesmer Updegrove LLP, which provides legal counsel to the LF.

5G SBP Diagrams- Technical Deep Dive - Amar

[Timo Perala](#) – In "ONAP for Enterprise Business" Task Force a question was raised: What is the plan to communicate with other open source communities mentioned in 5G SBP diagrams? Communities beyond ONAP and Magma. These are e.g. Anuket, Akraino, LF Edge. (See <https://wiki.onap.org/display/DW/TSC+Task+Force%3A+ONAP+for+Enterprise+Business>, notes from June 23rd session.) Timely engagement important to facilitate communities' planning. O-RAN SC (OSC) falls on this group of communities. [Trishan de Lanerolle](#) to help coordinate with OSC.

[Heather Kirksey](#)– Phase I focus – ONAP/Magma integration and proving traffic and pass through

[Boris Mimeur](#)– CENG may be able to provide lab space for this first phase; [Amar Kapadia](#)to communicate hardware specs.
