Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrove at the firm Gesmer Updegrove LLP, which provides legal counsel to the LF.

EMCO Induction

- [EMCO Project Proposal](#) presented to the TAC by Bob Monkman
- Using Apache 2.0 - Seed code dropped yesterday.
- TSC includes 11 appointed representatives
- Technical content was reviewed by cathy zhang
- Recommendation from TAC for EMCO to look at LFEEdge Baeytl and Open Horizon Projects as they are doing similar work.
- Use cases would typically be cloud with workloads irrespective of near or far edge - Will work with ONAP community to better define use case scenarios.
- Looking for induction to LFN due to the current alignment to existing LFN communities
- Discussion of Committer growth and how to manage - will be using lessons learned from other LFN Projects to establish governance around establishing PTLs
- Discussion of what compute resources will be used; are they sufficient for a Sandbox project w/o LFN funding? - will use some pods inside the Intel Community Engagement lab

Recommendations to be included w/ the vote

- Address TSC growth model
- Address PTL
- Note Lab resource allocation
- **Resolution to recommend EMCO to the Governing Board**
 - <https://wiki.lfnetworking.org/x/1Ye5Aw>
 - #agreed the TAC will recommend to the GB that EMCO be inducted as a Sandbox project in the LFN.
