Getting Started with EMCO

Welcome to EMCO! The following links will help you get started in the EMCO community. You are encouraged to sign up for the mailing list and attend the community meetings. When you subscribe to the mailing list you will automatically receive calendar reminders for upcoming EMCO meetings and events.

You must have a Linux Foundation ID to contribute to the EMCO Wiki. If you do not have an LF ID you can get one here: https://myprofile.lfx.linuxfoundation.org/

To provide code contributions to EMCO, you additionally need a GitLab account. If you do not have a GitLab account you can get one here: https://gitlab.com/users/sign_up/

By contributing to EMCO in the form of GitLab Merge Requests, you are required to sign-off your git commits. By doing so, you are implicitly agreeing to the CONTRIBUTING.md in the respective repository, which is based on DCO v1.1.
