LF Staff: LJ Illuzzi

## Agenda

- LF Antitrust Policy
- Meeting note taker
- Welcome to new attendees

- TAC meeting Recap & Followup
   Contributors list as requested by TAC

   https://github.com/orgs/l3af-project/people
   TAC feedback for L3AF: (1) L3AF Project Induction LF Networking LF Networking Confluence
- General Topics (cover as needed)
  - Use Cases
  - o Roadmap
  - o Project structure
    - Governance
    - Technical Steering Committee

### Minutes/Updates

- · We are inducted into the LFN!
  - o Congratulations everyone!
  - $^{\circ}\,$  LJ: Need a TAC rep to represent the project on the TAC as a sandbox project. Not a voting seat.
    - Also a MAC Marketing Advisory council to help with PR, media blasts, etc
      - Meet once a month
      - Will have Brian come in and talk about a MAC seat
    - Immediate need is to show progress on condition from TAC.
      - Report back to TAC ASAP.
    - Vicky: open issues to address this. We can form a committee if needed.
    - LJ: Governing board on Mar. 16th. We need to wrap up and respond before then.
      - May not be possible.
    - Vicky: Not sure if that is possible. Haven't looked at the governance repo in a while.
      - Don't know scope of work yet.
    - Dave: Condition was to have specifically the process as to how someone becomes a committer and who they are.
      - We could get that done by next week.
    - Vicky: We should crib from existing link and modify.
    - Dave: We have similar examples.
    - Vicky: Plenty of examples. Won't need to tweak a lot. FIDO does things a little differently
      - Lot's of projects, just pick one.
    - LJ: Typically a conglomeration depending on the needs of the community.
      - Pick what makes most sense and run with it.
    - Vicky: We will build our own lego set from other documents.
    - Dave: Most relevant for next week: Section 3.2.2.2. Committer life-cycle
      - https://github.com/l3af-project/governance/issues
    - Jason: Pretty close already
    - Dave: Code owners file needs to have individuals by GitHub ID
      - · Code owners file will always match the code owners
      - Package repo doesn't follow that right now.
    - Vicky: I will come up with a draft and send a PR.
    - Dave: Approvers on your PR. Majority of members must approve then it will count as a TSC decision.
    - Karan: Have primary and secondary.
    - Dave: Who are the TSC members? Not resolved.
      - Technical Steering Committee (TSC)
    - Erik remove Bala, include me.
    - Karan: Add contrib or code owner file.
      - Would that be you Vicky?
      - Vicky: Yes, happy to do that.
    - Jason: This should be in governance repo so we can track.
    - Vicky: Issue updated.
- LJ: Please provide pointer when we can get back to the TAC with an update
- · Vicky: Yes, will make some specific guidance to move forward ASAP
- Vicky: Need job descriptions.
  - O Karan: What can a rep expect? Need to discuss in more detail
- LJ: I can talk to the job description for TAC rep
  - O Brandan Wick: Talk for the MAC rep.
  - Set up nomination for TAC and MAC rep.
  - Then vote with OPAvote
  - O Vicky: Don't need anything that heavy.
  - Dave: Shared roles across different orgs.
    - Present face of multiple orgs invilved.
  - o LJ: Keeping visibility is important.
    - As an OSS project we need these processes
  - Vicky: We need open selection.
  - Votining requires that we have a slate of candidates.
  - Kiran: Job description would really help.
  - Dave: Rep is just a point of contact.
  - O Vicky: Show up to the meetings, communicate I3af's point of view.
    - Need standing agenda item to check in with TAC and MAC rep.
    - MAC meets once a month. Responsible to coordinate people on the l3af side to answer TAC or MAC requests.
  - O Dave: MAC would do things like PRs, conference attendances, booth staffing, etc.
  - Vicky: We have issi]
  - LJ: MAC: https://wiki.lfnetworking.org/x/6AAF
    - Should have a time period. 2 weeks.
  - o Karan: Should be fine.
  - Vicky: Please add your name to the list if you are interested.
  - Vicky: Mailing list is protected. Only MAC members including representatives.
  - O Dave: TAC does have a list. Vicky is listed.
  - O Vicky: I am?
  - O Dave: Yes under Juniper.
  - LJ: Nominations for MAC: https://wiki.lfnetworking.org/x/v4q5Aw
  - Vicky: Do it in the issue. Table is for the approved ones.
    - Issue 12 for TAC and Issue 13 MAC.
  - o LJ: Groups.io login for mailing list.
  - O Vicky: Must be on MAC to be on mailing list.
  - Santhosh: Last meeting some review comments for I3afd API
    - Added auth section. Please have look at PR and comment.

- https://github.com/l3af-project/l3af-arch/pull/20
   Licensencing: GPL2 and BS, MIT, etc
   Updagted XDP, TC needs approval
   Dave: Will have a look.

- https://github.com/l3af-project/eBPF-Package-Repository/issues/8
- Dave: Governance repo stuff needing discussion?
  Vicky: I can make a proposal.
- - Not ready for discussion yet.
- Karan: Would help to review offline so that we are ready for next call
   Jason: Priority is the conditional for the LFN induction. Commotters.
- Dave: Resolve issue #2
  - LJ: Yes, done with that.
  - Comment in issue before closing.
- Vicky: issue to set up template repo so new projects can copy and automagically get all this stuff.
  - O Github does not look at code owners. Would be nice if it did.
  - O Lot's of moving parts.
  - Fix access and perms for repos.
  - o TSC member should have access for all projects under l3af
  - O Good to do now before we grow too much
- Dave: Issue #6
- Vicky: Take a stab at...Stabbing is violent, we shouldn't do that.
  - will put together suggestions and email everyone with summary,
