

Requirements and Use Case Advisory Group

The need for a Requirements and Use Case Advisory Group within the 5G Super Blueprint was identified and requested during the [March 2022 Developer & Testing Forum](#) as a result of conversations among LFN communities on how open source platforms fit together in the 5G Super Blueprint.

The role of the Requirements and Use Case Advisory Group is to identify Use Cases, develop requirements, align platform component roles, all under the umbrella of assuring alignment among open source projects within the [principals](#) of the 5G Super Blueprint. Member participants are asked to work with the Requirements and Use Case Advisory Group on various tasks, for example, requirements development, etc.

Meeting Notes

Name	Company/Affiliation	Contact
Ranny Haiby	ONAP TSC, LFN TAC	rhaiby@linuxfoundation.org
@Haseem Ahmed	ONAP, CNCF, TIP, 3GPP, LFN, MEF	haseem.ahmed@kratosdefense.com
Oleg Berzin	Equinix/LFE Akraino PCEI	oberzin@equinix.com
Amar Kapadia	Aarna Networks, EMCO, LFE Akraino PCEI, LFN 5G Super Blueprint, ONAP	akapadia@aarnanetworks.com
Gervais-Martial Ngueko	ONAP	gervais-martial.ngueko@intl.att.com
Ganesh Venkatraman	Kaloom/LFN	gave@kaloom.com
Muddasar Ahmed	MITRE/ONAP	msahmed@mitre.org
Benjamin Posthuma	GenXcomm	ben@gxc.io
Neil Hoff	US Navy	neil.hoff@navy.mil
@seshukm	ONAP, EMCO	seshu.kumar.m@huawei.com
Nadathur Sundar	Intel	sundar.nadathur@intel.com
Hanan Garcia	Red Hat	hgarciag@redhat.com
