Agenda

Minutes

March Developer Event Followup

- Notes: 2022 LFN DTF Workshop Topics
- Action Items: 2022 LFN DTF Workshop March Action Items
- Folks are still working processing the sessions, ideally we likely need a follow up session to chase down the action items and make sure the outcomes are assigned and have champions.
    - Can the program committee meet 1 or 2 more times to tackle this?
- CNCF Follow up:
    - Doodle poll for the next session: https://doodle.com/meeting/participate/id/QbYwKlAe
    - Feedback to CNCF from Anuket RA2: https://wiki.anuket.io/display/HOME/2022/03/01/Analyzis+of+CNCF+CNF+Testsuite+tests+for+RA2

2022.r1 Release

- Branch for 2022.r1 development: https://gitlab.com/lfnetworking/cvc/anuket-assured-docs/-/tree/release.2022.r1
    - Basic folder structure, the beginnings of the readme file.
- Anuket release is upcoming, which will be pointed to by this release.
- For ONAP, Lincoln Lavoie will start a conversation with Yan Yang to understand the current testing that could / should be referenced for the 2022.r1 badge.
- Developer guidelines
    - Lincoln Lavoie has a branch underway to create a simple developer's doc to help people in getting started with the development / release process for badges, etc.
    - Aiming to get this up for review by the end of this week.

Any other business

- Next Meeting: March 28, 2022
- Upcoming CVC leadership elections in April, 2022.
- Need to review the feedback document from Oliver at the next week.
