Minutes

Reviewed venue information.

There is a need to get cross-community sessions discussing their topics and getting their proposals in early. Because this will be a return to in-person events, there is a need to ensure that logistics are considered.

Casey Cain & Heather Kirksey encouraged the community members to promote topic submissions and registration for the event so the LF can plan the building logistics.

Gergely Csatari suggested that we should be encouraging people to set up and lead sessions on Release Management, Documentation, and Security.
