

2022-05-02 CVC Meeting Minutes

Attendees

1. [Lincoln Lavoie](#)
2. [Sandra Jackson](#)
3. [Marc Price](#)
4. [Olivier Smith](#)

Outstanding Action Items

Task report

Looking good, no incomplete tasks.

Agenda

- Task report
- [2022 Leadership Elections](#)
- [Release 2022.r1](#)
- [Any other business](#)

Minutes

2022 Leadership Elections

- Voting has closed (April 25 to May 1), [Sandra Jackson](#) needs to finalize the results, with a review from another LF staff (second set of eyes), and will announce the results later today.
- Next meeting, May 9, will be chaired by the newly elected chair.

Release 2022.r1

- 2022.r1 release branch: <https://gitlab.com/lfnetworking/cvc/anuket-assured-docs/-/tree/release.2022.r1>
- ONAP VNF-SDK project is in maintenance, but development / support is being continued within ONAP. This testing should cover TOSCA based VNF templates. May still be missing coverage for HEAT based templates. Need input from ONAP teams for what this will look like for the 2022.r1 release.
- Open question about how new NEPHIO project relates to ONAP / testing.

Any other business

- Next Meeting: May 9, 2022

- ☒ [Sandra Jackson](#) to check on broken link, "If you navigate from <https://anuket.io/verification/> and from the bottom select the "here"it seems the URL is now incorrect (I get a 404)."
