

2022-06-13 - Plenary: The LFX Dashboard: Tool Suite and Community Review

Topic Leader(s)

- [Henry Quaye](#)
- [Brandon Wick](#)

Topic Description

60 Minutes / Henry Quaye + Brandon Wick

Overview of the community around LFX and tool suite Q&A

Topic Overview

You probably already know that the [LFX tool suite](#) has been designed to support the various project communities of the Linux Foundation. You may also know that LF Networking has been at the forefront of driving end user requirements into LFX. But, have you completed setting up your individual dashboard? Do you know how to view, parse, and analyze your project community metrics? We'll give you a brief overview of the tool, show how to update and leverage LFX, and hold a Q&A. *Note to the Programming Committee: This session needs to be in on Day 1 or Day 2 due to speaker availability. But Henry will be on site all week for follow-up questions and collaboration.*
