Bob went over the initial changes to the 5G SBP Use Case for PCEI that [Oleg Berzin](#) and others have been a lead on. The changes were just to the Problem Statement/How does this BP solve the Problem(s) section as a result of the Requirements and Use Case WG discussion on Monday where it was pointed out that submissions should be Requirements First, Implementation options Second.

Please see the modifications in italics here: [5G SBP Use Case - Public Cloud Edge Interfacey](#)
