Topic Description

We had the OPNFV and CNTT merger to Anuket more than one year ago, still we have lots of leftovers of this merger. Let's craft a plan how to get rid of these.

Topic Overview

Some leftovers to be addressed from the top of my head:

- CNTT organisation and repos in GitHub (<https://github.com/cntt-n/CNTT/>)
- CNTT in readthedocs (<https://cntt.readthedocs.io/>)
- OPNFV artifacts (<http://artifacts.opnfv.org/>)

Let's discuss if we would like to change these and if yes craft a plan to do so.
