

# One Summit and Kubecon Kubernetes Edge Day October 2022 CFP submissions

[Brandon Wick](#) [Igor DC Sundar S Ritu Sood](#) [Trishan de Lanerolle](#) Please help flesh out this page.

## One Summit 2022 Submissions planned

The EMCO Technical WG meeting on Friday July 22 discussed further and the team came up with at least 3 new ideas.

- 5G Slicing Use Case with possible tie -in to 5G SBP is being worked up for submission by Intel and partners
- An Intel security related EMCO submission is also underway
- [Srinivasa Addepalli](#) is working up from Aryaka Networks with a SASE use case around EMCO
- Brandon also mentioned Aarna is also working up a proposal for something related to EMCO integration with OPA policy engine
  - Submissions or KubeCon Edge Day on EMCO Overview was sent July 25 as well.

## KubeCon Kubernetes and Edge Day Submission

An EMCO Overview was submitted by Aarna Networks for the main KubeCon event (Rejected)

A similar EMCO Overview was submitted as a joint Intel Aarna Networks submission for the Edge Day

Igor submitted an EMCO preso on GitOps support to GitOps COn co-located event, awaiting response.

Ritu submitted a session to KubeCon main event and it was accepted!- Overview of Challenges and Solutions for Orchestrating Applications to Multiple DC and Edge Clusters

Brandon Submitted a Session for Sundar and Sandeep: "Automated Policy-Based Service Assurance in Cloud-Native Environments"
