ONAP/ODL Collaboration Meeting notes 2022-10-18

Date 18 Oct 2022

Attendees

David McBride, Kenny Paul, Robert Varga, Andrew, Dan Timoney

Topics

- London release vs ODL roadmap reconciliation
  - London M3 is scheduled for March 2
  - Final checkpoint for Argon is Feb 23
  - ODL Argon formal release is March 16
  - ODL Release sched: https://docs.opendaylight.org/en/latest/release-process/release-schedule.html
  - ONAP London sched: https://wiki.onap.org/x/fwDiC
  - Integration strategy:
    - Begin with ODL Chlorine (initial release this week)
    - Depending on the ease of integration with Chlorine, we may consider moving to Argon by London M3
  - ONAP integration tasks for ODL
    - Update to Java 17
    - ODL REST API
      - Start by getting a clean compile with Sulphur, then Chlorine
- ODL REST API code move to ONAP

Action items

- [ ] David McBride add ODL REST API code transition vote to Oct 20 TSC meeting

- [ ] David McBride reach out to Magnus to see if he has any concerns about code transition
