2022-11 - ONAP: Architecture Update - Security, Logging and others

Topic Leader(s)

- Byung-Woo Jun

Topic Description

30m, Byung-Woo Jun

We will provide ONAP architecture update on Security, Logging and other enhancements.

Topic Overview

We will provide ONAP architecture update on Security, Logging and other enhancements.

This session will provide ONAP security, logging and other enhancements:

- Rationale for service security
- Service mesh security for inter-component security, leveraging Istio and its authentication/authorization policy
- External secure communication and authentication/authorization, leveraging Istio, Keycloak, Ingress and Egress
- ONAP Role-Based Access Control support
- Open-Source-based, uniform and extensible logging framework
