Technical Steering Committee

[Charter](#) (Mission and Scope of the Project, TSC, TSC Voting, Compliance with Policies, Community Assets, General Rules and Operations, Intellectual Property Policy, Amendments)

[Current Members](#)

Project Roles

- An initial TSC has been established per above. TSC eligibility is defined per above and aligns with the Technical Charter . Contributor and Committer are defined per above. TSC Chair, TAC representative, and MAC liaison roles will be assigned through nomination, then TSC voting. Additional roles, including Project Technical Leads (PTLs) may be defined as project needs arise.
- The TSC Representation table is [here](#). The TSC represents the top-level decision-making body for the project.
- Additional project roles, as needed, are filled by TSC voting (majority)
- Removal from a Project Role-
 - A person may voluntarily resign from a project role by making a public announcement to the TSC.
 - A person in a project role who is disruptive, or has been inactive on that project for an extended period (e.g., six or more months), or is not abiding by the project charter or code of conduct may have his or her role status revoked by the TSC.
 - Disputes are resolved by TSC voting (majority)

Code of Conduct

[L3AF Code of Conduct](#)

(Proposal) Diversity & Inclusivity

The community follows and abides by the Diversity & Inclusivity initiatives set forth by the Linux Foundation: <https://linuxfoundation.org/diversity-inclusivity/>

Committers and Process for Selecting Maintainers
