Open Action Items

Task report

Looking good, no incomplete tasks.

Agenda & Minutes

Standing Items:

- Review any Open Action Items (from weekly Minutes)
- Review any Issues in Gitlab

Topics for this week:

- Proposal - Anuket Assured on LFN 2022 Yan Yang Proposal - Anuket Assured on LFN 2022.pdf

  Any further feedback on Anuket Assured Structure and Content?

  - No further comments, Sandra will now work with the development team to get the changes applied.
- Status of RI2 install
  - Progressing but small issues along the way. These are being resolved by the teams.
- Status of requirements/tests for an Anuket Assured CNF badge early 2023?
  - Scot Steele and Olivier Smith to setup a call to work on the areas we have previously identified as being important to making this happen:
    - Certify Anuket R2 (Kubernetes Certified)
    - Capture the R2 workload requirements and tests needed to support an Anuket Assured badge
    - Sort collaboration between CNCF and Anuket specifically around use of the CNF Test Suite (align where we can on best practices/tests and diverge only where R2 must)
- AOB
  - None

New Action Items

- ☑ Sandra Jackson - take the proposal for Anuket Assured and have implemented.
