

2022-11-28 CVC Meeting Minutes

Attendees

- [Olivier Smith](#)
- [Sandra Jackson](#)
- [Scot Steele](#)
- [Yan Yang](#)

Open Action Items

Task report

Looking good, no incomplete tasks.

Absent (but included so they receive the meeting minutes):

- [Kodi Atuchukwu](#)
- [Marc Price](#)
- [Lincoln Lavoie](#)

Agenda & Minutes

Standing Items:

- Review any Open Action Items (from weekly Minutes)
- Review any Issues in Gitlab

Topics for this week:

- All -review requested: [Verification – LF Networking](#)
- Sandra - Updates from ONE Summit and D&TF
 - D&TF recordings <https://wiki.lfnetworking.org/x/YwNzB>
- Olivier/Scot - Updates from our call before Thanksgiving
 - Action items from that meeting are added below.
- Scot - Any updates from RI2
- Yan/Kodi - Any updates from review of program documentation structure
 - [Suggestions about AAP doc improvement.pptx](#)

New Action Items

- ✓ Scot Steele Identify RA2 Workload Requirements and the RC2 Tests (for Nile Release) that would be mandatory for an Anuket Assured R2 compliant workload.
- ✓ Olivier Smith Talk with Taylor about which parts he sees as valuable to certify (Certified Kubernetes). Kuberef is using KubeSpray which is a certified K8s installer. What more?
- ✓ Olivier Smith Setup call with Lincoln, Scot, Olivier (others from Anuket Assured welcome). Two topics - 1) Do we certify RI2 at UNH as a precursor to UNH being a Certified Lab? 2) Is UNH interested to become a certified lab for compliance testing of R2 infra and workloads?
- ✓ Olivier Smith Once RI2 is up/running/passing the R2 infra tests - look into MATRIX interest to start testing for R2 workload compliance.
