 - Use Cases
 - Roadmap

Minutes/Updates

- Website ([l3af.io](#)) updates for R1 release
 - <https://l3af.io/home-2/> Password: l3af

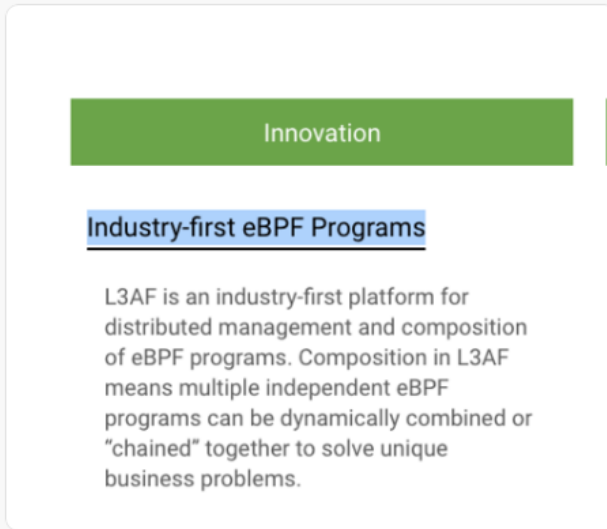

Jason Niesz 6:02 PM

looks good

one change I would recommend is

6:02 image.png ▾

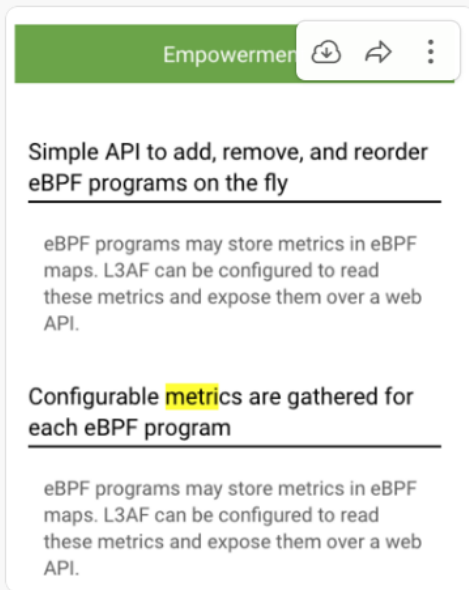

Changing that to "Industry-first eBPF Programs as a Service"

Jason Niesz 3:27 PM

yes, lets try to close on this in tomorrows meetin

3:27 image.png ▾

^ Santhosh found that as the text is the same

Santhosh Fernandes 8:21 AM

Hi LJ, Some comments on the new portal can we change in the second diagram (L3AF vision) replace Kernel Function Marketplace to eBPF Program Package repository. Description for "Simple API Add to" => APIs are mTLS enabled and allows user to update configs for the eBPF programs on the fly.

Action Items

- [Charles Liu](#) fix repo stats
- Updated roadmap based on discussion

Future Agenda Items
