## Agenda

Awesome presentation

- Point 1
- Point 2

## Minutes

Overarching Goals

- Alignment with RA2 -
  - Versioning (Kubernetes, Functest, and CNCF TestSuite)
  - Stability is critical, Do we use Nile for the basis or can we adapt to Orinoco.
- Adoptability: Updates to Chapter 5 - are they need.

Review of Chapter 2:

Iterations - Do we consider Levels (silver/platinum) by increasing the number of its.

Review of Chapter 4:

Update Testing to align with RA2 requirements.

Work with CNCF to determine the level of pass/fail for Telco specifics.

Configurable - make the capability for that.

Work on making calling specific CNCF tests in in Functest.

Asking the cluster - accepting output vs testing execute

Attempt to implement more of the RA2 requirements - going to a execute validation.

More configurability overall.
