2023-06 - General : Cross community collaboration for ORAN IMS through O-Cloud Operator

Topic Leader(s)

- Seshu Kumar Mudiganti
- Shashikanth VH
- Sunny Gupta

Topic Description

60m, Seshu Kumar Mudiganti Shashikanth VH Sunny Gupta

The agenda of this slides is to give a brief intro to K8s Operator.

Explain what and how K8s operator works and how Nephio uses them now. Use of a K8s operator in the automation through Gitops.

We will then showcase this with a demo.

#Nephio #ONAP #ORAN-SC #ECMO

Topic Overview

The agenda of this slides is to give a brief intro to K8s Operator.

Explain what and how K8s operator works and how Nephio uses them now.

Use of a K8s operator in the automation through Gitops.

We then depict the different ways of integrating the operator with other open source solutions (Nephio, ONAP, ORAN-SC, ECMO...), this is NOT to promote using all of them together, but to show how and what part of the solution is being tackled by each of them and a possible way to re-use the O-cloud operator across them.

We will then showcase this with a demo.
